Yes! Origin started in the literal proverbial garage. We took it over from my mother, who had been using it as an art studio.

I remember seeing one of those when the S/L crew came to dinner at your house. You & your buds were working up over the garage porting the game to other machines. Your mom showed us the game box with one of those in it. Good memories!

It would be nice if @EA allowed you access to all of your work for the premise of remastering/remaking the all the games you created for modern pc/consoles
